

HOW TO: Finish a Project in Pathways

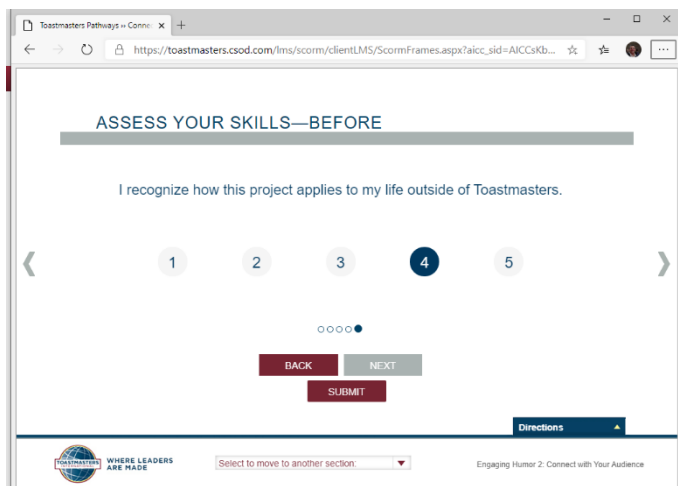

Summary:

Completing a project in pathways can sometimes be complicated. There are a number of steps which must be satisfied in Basecamp before it will be marked as complete. If you're having troubles completing a project it usually is that you haven't answered every question in the "Assess your skills – Before" and "Assess your skills – After" quizzes. All questions must be scored before the project will complete in Basecamp.

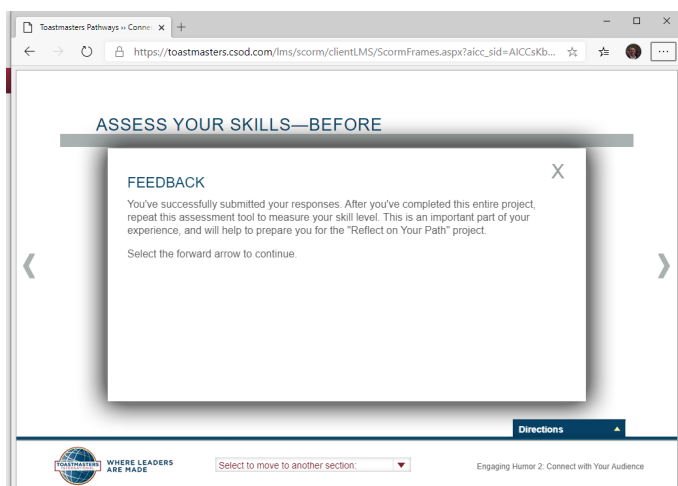

Assess Your Skills - Before:

Answer each question in "Assess Your Skills – Before" and press the NEXT button after you score each question between 1 and 5

Once you have answered every question a SUBMIT box will appear. Press this box.

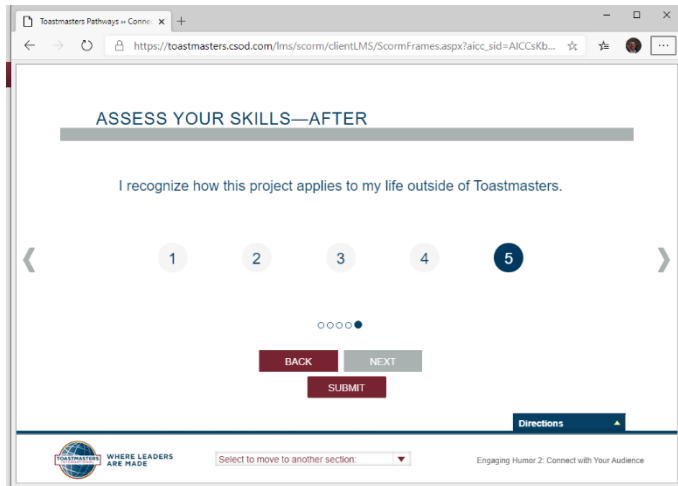

This screen will appear confirming you have submitted your responses. Now you can go about reading about your project and preparing your speech.

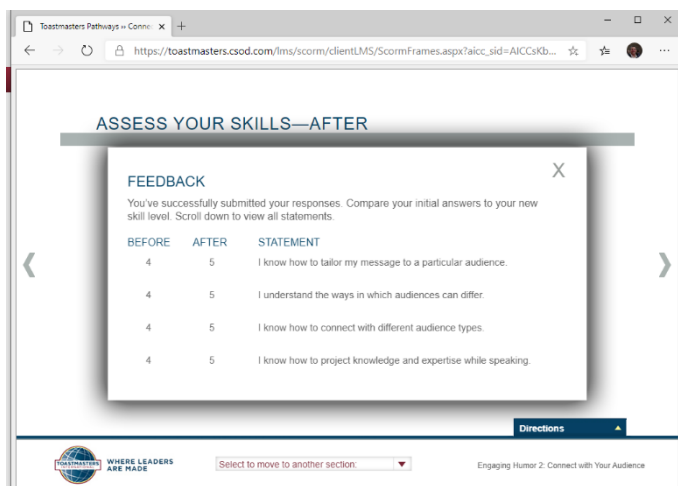

HOW TO: Finish a Project in Pathways

Assess Your Skills - After:

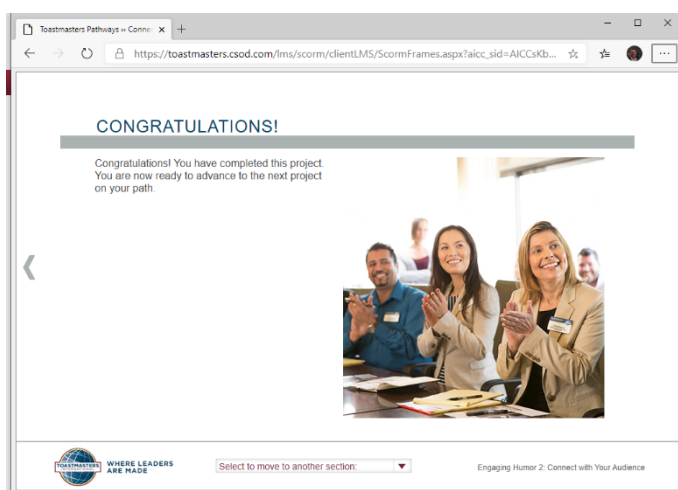

Just like the before quiz, answer each question, press NEXT and once the final question is answered press SUBMIT

Once you have answered every question this screen will appear where you can compare your before and after scores.

Click on the right arrow to move to the final screen.

Congratulations you have completed your path!

If you close this tab on your browser it will return you back to your list of projects and a tick like this will appear next to your project
